MOTTO

Work Smarter - Not Harder 💡

PROFILE

Backend developer with 13+ years of experience in SQL Server and a strong focus on Data Platform solutions. I help build data-driven company by turning data into actionable insights. Team player, tech enthusiast, and always curious to explore new tools and approaches. AI Ambassador since 2025.

WORK EXPERIENCE

Tech skills: MS SQL Server, .NET (C#), Business intelligence, PostgreSQL, DWH, REST API, Power BI, Artificial intelligence, PowerShell, Windows Server, Active Directory, Group Policy, Git, SVN, Jira, Crystal Reports

KRUK Česká a Slovenská republika s.r.o. 08/2017 - PRESENT
Database Support Team Leader

- I lead and mentor a team responsible for internal database support, data operations, and automation.
- I ensure the reliability of systems, compliance with SLAs, and continuous improvement of internal processes.
- I manage infrastructure, database security, and user support while actively contributing to strategic planning, budgeting, auditing, and team development.

KRUK Česká a Slovenská republika s.r.o. 01/2013 - 07/2017
Database Developer

- As a Database Developer, I focused on data import, transformation, and maintenance within internal SQL environments.
- I developed and implemented automation tools and data migration mechanisms, created reports and views, and continuously optimized database performance to support business processes.

EDUCATION
